
TWO BUILDINGS NEAR COMPLETION

This last week has been a busy week for Company 450. The sound of hammers and voices of working men has become just an every day event around the camp. The buildings are a Mess Hall which is placed in the same place that the old one used to hold and the other building is a Foresters quarters which is placed just to the right of the old quarters. Monday moring those buildings began to take shape and the constant pound of hammers and efforts put forth by the working men had put them in the shape of buildings by Wednesday. The plumbing and covering and finishing has taken quite a bit of time since them.

The building will give more room in the company mess hall and will be much easier to keep up to the standard. The Forestors quarters will give them a lot more room and will be quite comfortable. The buildings are of the portable type which all new CCC camps are being put up of. The pannels were taken down where they were put up at Nashville, Ga. and hauled by truck to this camp. They were then put in place and bolted together again. Very few nails were used. The buildings are well braced and are study and strong.

These buildings will add greatly to the appearance of the company will prove their value fa far as service is concerned in the future. Both of them will be in use very soon.

SATURDAY JULY 4th.

Next Saturday is July 4th, or to be exact tomorrow is the day. It is understood that passes will be issued from Rriday night through Sunday which will give all those who want the 4th off.

With out a doubt everyone remembers that the 4th of July is the day that the Declaration of Independence was signed by the representatives of the struggling young American Colonis which were harassed by tatics of the British which they considered as flagrant violations of their rights as free men.

This unto today we still hold July 4th as an outstanding holiday.

- -

DISCHARGES

This week five of the oldest men in camp have received discharges. They are as follows: Bill Jackson, E. Stripling, J. H. Sadler, Paul Calhoun, and Edward Martin. These men will retun to their respective homes.

- -

BASEBALL GAME POSTPONED

This weeks baseball game that was to played between Fargo and this company on our diamond has been called off because of the holiday day on Saturday. The game will be played some time later on, the time has not yet been set but will be announced as soon as araingments are made.

Published every week by the Educational Department, Company 450, CCC, Camp P-53, White Springs, Florida.

SUWANNEE PHILOSOPHY
By C. W. Johnson

The only pool I'm interested in now is the swimming pool.

Maybe the nut behind the wheel causes a lot of wrecks but it's the wrench of the nut that causes the most turnovers.

A flat tire at anytime is a pain but to have one in the car with you is a whole lot worse.

The producer of George Whites Scandals may never have taken a course in bookkeeping but he specializes in figures.

Just how happy it's possible for a man to be and still stay in the CCC hasn't been put in statisctical form. But who needs statistics when Johnson's running in circles and trying to sing songs.

In the ditch one time Lovett?

The shadow has to extend his thanks to the manager of the Green Derby. It seems to be the favorite place for the swains to wait for their one o'clock rides after the dating is over.

Where beautiful maddens go there goes 450.

Dees?, little thing called love.

PROSPERITY

The coming man will know that if he wants to produce a crop of prosperity he must not sow failure or poverty seeds. He will sow the seed that will give the crop he wants. If he wants to have a crop of character, he will sow the seeds of love; and he will know that if he sows seeds of hatred and revenge he will get the same crop.

The body is simply a shadow of the mind; it can not be anything else. Ie would not be possible for a person to hold only thoughts of love in mind and not have the body the same. It is only a question of time. There is no guess work about the process. There is an absolutely inexorable law: Like must produce like. It is not possible for a thief to injure the person he steals from half as much as he injures himself. If we would be good to ourselves we must be good to others also. We can not strike our neighbor without getting the blow ourselves.

Genius is nothing but the power of making a continuous effort. Fix in your mind the thing you are going to do, the thing that is worth while, and then do it with determination.

A salesman is a genius who has the power of living up to the motto "This one thing I do," the power of continuous effort. The genius of being successful can be reached by applying great diligence to this continuous effort; by keeping everlastingly at it.

HAPPINESS

FIRST: Commit a gem to memory every day--a bit of poetry, a Bible verse, a noble thought.
SECOND: Look for something beautiful every day--a flower, a silver cloud, a golden star.
THIRD: Do something for somebody every day--a bright cheerful smile, a cordial goodmorning, a word of encouragement--the little courtesies which help to enrich the lives of others and beautify our own characters.--Alice Freeman Palmer.

DO A GOOD TURN DAILY.

CORRESPONDENCE WORK

If there is anyone in the company that wishes to take correspondence work it can easly be arrainged for them to do so through the International Correspondence Schools. This school is one of the largest of its kind and has reputation of being one of the best. The charges are small they run about one dollar to begin with or to enrolle and them about one dollar and a half per month. If any one wishes to take this kind of work let us know.

At the present time we have several that are doing this kind of work and you may investigate their work and see if you are interested.

- -

ELEMEMENTARY CLASS WORK

The elementary classes in the log cabing which are hoold every night during the week except on Friday and during the week-end are prgoressing nicely. We have good size class however there is still lots of room for more students. We know that there is plenty of us in this company that need a little schooling so why not take this opportunity to go over and see what you can learn.

Mrs. Crawford will be glad to help any of you in any way that she can. She says the larger the class the better. So lets give her a large class.

- -

TOWER NEAR COMPLETION

The tower that the Forestry Service is building over in the Fair View Forest is near completion as stated by Mr. Leynes, acting project superintendent in thheabsence of Mr. Page, who is on leave at the present time.

This will one of the several towers that this camp has built during its time here. It is a wooden tower and will aid in the protection of fires.

BASEBALL

450 DEFEATED BY HOMERVILLE 8 to 2

The 450 baseball team lost to the Homerville team Saturday June 27th on their own Diamond, but they are to be congratulated on their excellant strive to keep up the percentage of the team. They lost with a great showing of sportsmanship and hard play.

The players did not ive up the coninued to fight just as hard as they could during the whole game with hopes of bring the score up, but they failed to get a ralley thus droping the game to Homerville.

TENNIS

The tennis court still holds its players, yesterday we noticed that a number of men were looking for some opponnets out on the court. If you like the game come our and you will be able to find some one to match you most any time all wating for their turn to come. Try to take care of the equipment and it will last a long time. Lest all play our part of tennis.

BIMBO!

Just in case you ask me "THIS NEW BUILDING AFFAIR IS A PROBLEM".

ONE YEAR AGO

Taken from Suwannee Echoesd dated July 4th, 1936.

Kenneth B. Stubbs, Fred Heath, and Charles Stevenson, left camp Sunday morning, June 30, 1935 for their home.

R. E. Johnson, Pat Funderburk, Walter Judd, and Leo Baker are being transfered to Fort Screven, Ga. From Fort Screven R. E. Johnson will go to Hardeeville, S. C. where he will assume the position as Senior Foreman of a camp. The remaining three will remain in Fort Screven as members of the Supply Company.

Raymond Slattery and Howard D. Coleman returned from Fort Screven, Ga. Monday night where they have been in training as Red Cross Life Savers.

A great baseball game with Co. 451 was planned for last Saturday, but was not played because of rain.

About sixty-five new boys went to the woods for the first time this week, after having spent two weeks in camp under the conditioning period.

Last year July 4th, was on Friday, three day passes were given out.

SUWANNEE SLUDGE

Tyson seems to be lost since his youthfull hearts desire left for her vacation in Jax. Take it easy, Whiffle Jaw, she'll soon be back home and you can resume going to town twice a day.

Meisky doesn't care for the park but it seems that he likes to park--on one of those convenient benches around the lake. Some of these days he's going to get run over, it isn't safe to sit so close to the road with so much one arm driving going on. He probably wouldn't even notice it, though.

We don't hardley know but it has been reported that Donald has been building Sandwiches. My we'll say that that is one way to stay on the good side of him. Now we wonder just who him is. Of course we would not tell but he is a pluber. Thats right Don every little bit helps.

Tonton something tells us that you many had a big time during the week. Now just what was rong we cannot tell. But the report is that you have found a new home, well it might be new to you but we think it is old to lots of these guys.

The Shadow says that the scandal is short this week but the Editor is right reddy to contridict such an explanation. Because the scandal is greater this week. By the reports the Editor went off Monday, Tuesday, Wednesday and Thursday. We guess the next question will be where did he go. Well here the answer is, He went off the ground onto one of those new buildings that is under construction. Of course he was not by his self there were several of the others that enjoyed the pleasure of standing, walking and moving around while two great bigh buildings just took shape. One guy said that sleepy over-head will wake up now. Well we don't know wheather we woke up or not but we do know that those buildings went up and went up in a hurry. We think that the supply sgt. and 1st. sgt. along with the others enjoyed the exercise as well. Them buildings should be good ones.

AROUND CAMP

As previously stated the noise of the hammers and the voices of working men has made this camp different during the past week. But we don't let that worry us if we get a chance to sleep. But the trouble is that most of us has been doing our sleeping during the night and even some of us from one till, till we had to get. Such things as that makes the days might long. We think that is the reason why we done so much work. Them long days will soon may a fellow hund them long nights.

To quite a bit of freash air has been enjoyed by the cooks. During the changing of the mess ahlls two stoves were put up on the out side and here is were this past weeks grub was cooked. One one occasion Pop droped a boiler on his toe which disabled him for a while, this being the only serious accident. The grub was eaten in mes-kits as usual but the seats was not at a table there anywhere anyone could find to sit and lodge his mess kit. Quite a numver of them stood up while the others found seats as near as possible. But now the stoves are back in the new kitchen and the grub even tast better by being cooked in the new kitchen, ofcourse the same experienced cooks are doing the cooking.

It has been noticed that our fence has no stoping effect upon some of the cows around here as two of them has made a habit of just walking up to the fence and hoping over. The have joined the company it seems but they must don't know what is in ~~store for them.~~

FRIDAY NIGHT DANCE

Last Friday night a dance was held here in camp. From all reports the number present surely has a big time. he music was played by the members of this company along with several other helping ocassionaly. The square dances from all parts of this comunity came in and went round and round.

Those taking part in the dance went round and round until the dead hour of midnight crept up on them and they had to call it a day. Just when another of its kind will be staged is still unknown.

LEAVE CAMP

During the past week several of the well known pest were heard squaking around here and there. Upon investigation we all found out that they were just a few of the well known pesty hogs being caught and hauled off in a truck.

My we all will agree that we are glad to get rid of those that have bone and we all ways hope that there will not be another to take that ones place, but they seem to come from some where as you can find them around most any time.

We don't hope them no bad luck but we do hope that they will all get gone and cannot find the way back.

Along with the hogs a few of the cats have got gone well we just think that their being gone will help the fleas. At least we hope so. For the past six months we have had from one to two dozen dats with equal that number of hogs. We are now reducing their number.

SCREEN DOORS RE-ENFORCED

This past week the screen doors have been re-enforced at the bottom by putting a heavier wire over the bottom section of the door. This will prevent anything striking the bottom of the door from caring the fine wire out.

This wire was badly needed and will eliminate that part of the screen door problem.
